

# Akute Pharyngitis

---

Version 15.03.2018/ PV

This document represents the development process of the above mentioned guideline published on behalf of the Swiss Society for Infectious Diseases (SSI).

## Type of Guideline development

This guideline was developed and published in 2018 on behalf of the SSI according the new guideline development process of the SSI (7.5.17).

The short version of the guideline digest was prepared based on the published guideline by the expert group.

The regular review process of the *guideline digest* took place in March 2018.

## Relevant information regarding the development of the guideline

1. Reference Document for the Guideline:

Französische Richtlinien, 2011, Empfehlungen für gute Praxis: Allgemeine Antibiotika-Therapie in der Praxis bei Infektionen der oberen Atemwege bei Erwachsenen und Kindern  
<http://www.infectiologie.com/UserFiles/File/medias/Recos/2011-infections-respir-hautes-recommandations.pdf>

Europäische Richtlinien 2012, Leitfaden für die Behandlung von akuten Halsschmerzen. Clin Microbiol Infect 2012;18:1-27 [http://www.clinicalmicrobiologyandinfection.com/article/S1198-743X\(14\)61968-6/fulltext](http://www.clinicalmicrobiologyandinfection.com/article/S1198-743X(14)61968-6/fulltext)

Authors expert group

Benedikt Huttner (Genf, Chairperson), Werner Albrich (St. Gallen), Boillat-Blanco Noémi (Lausanne), Claudine Gysin (Zürich), Christoph Berger (Zürich)

2. Author's Conflict of Interest

No conflict of interest declared

3. Date of publication of guideline digest

15.03.2018

4. Expected time span for revision of guideline

1 Year

## Review process

Due to time constraints, this guideline could only be fully reviewed by members of the SSI (including but not limited to all Swiss ID Category A-clinics). In a next actualization round of the guideline, the review process will also include experts from other professional societies.

## Switzerland-specific modifications from the original reference guidelines

The expert group identified a number of issues in the international reference guideline that should – according to the experts – be adapted for Switzerland.

The document with all the proposed changes is referenced within the [guideline digest](#)
